Memortal Kombat

WHITEPAPER

Proposed By:
MKOM Team

Introduction

Welcome to the Memortal Kombat Whitepaper, introducing the pioneering fusion of blockchain technology, animated cartoons, and competitive gaming. Memortal Kombat aims to redefine the gaming landscape by introducing live cartoon animated fights, where political, celebrity, and crypto memes collide in an electrifying arena.

Overview

Memortal Kombat stands as a revolutionary blockchain project, leveraging Polygon's decentralized power to create an unparalleled gaming experience. Our platform transcends traditional gaming by introducing live video cartoon animated fights, where meme characters battle in real-time, captivating audiences with every move.

3. Memortal Kombat Token ($MKOM)

3.1 Purpose

The Memortal Kombat Token ($MKOM) forms the cornerstone of the Memortal Kombat ecosystem, facilitating interactions and engagements within the platform. $MKOM serves as the primary currency for accessing live fights, placing bets, and participating in various activities, ensuring a seamless and immersive gaming experience.
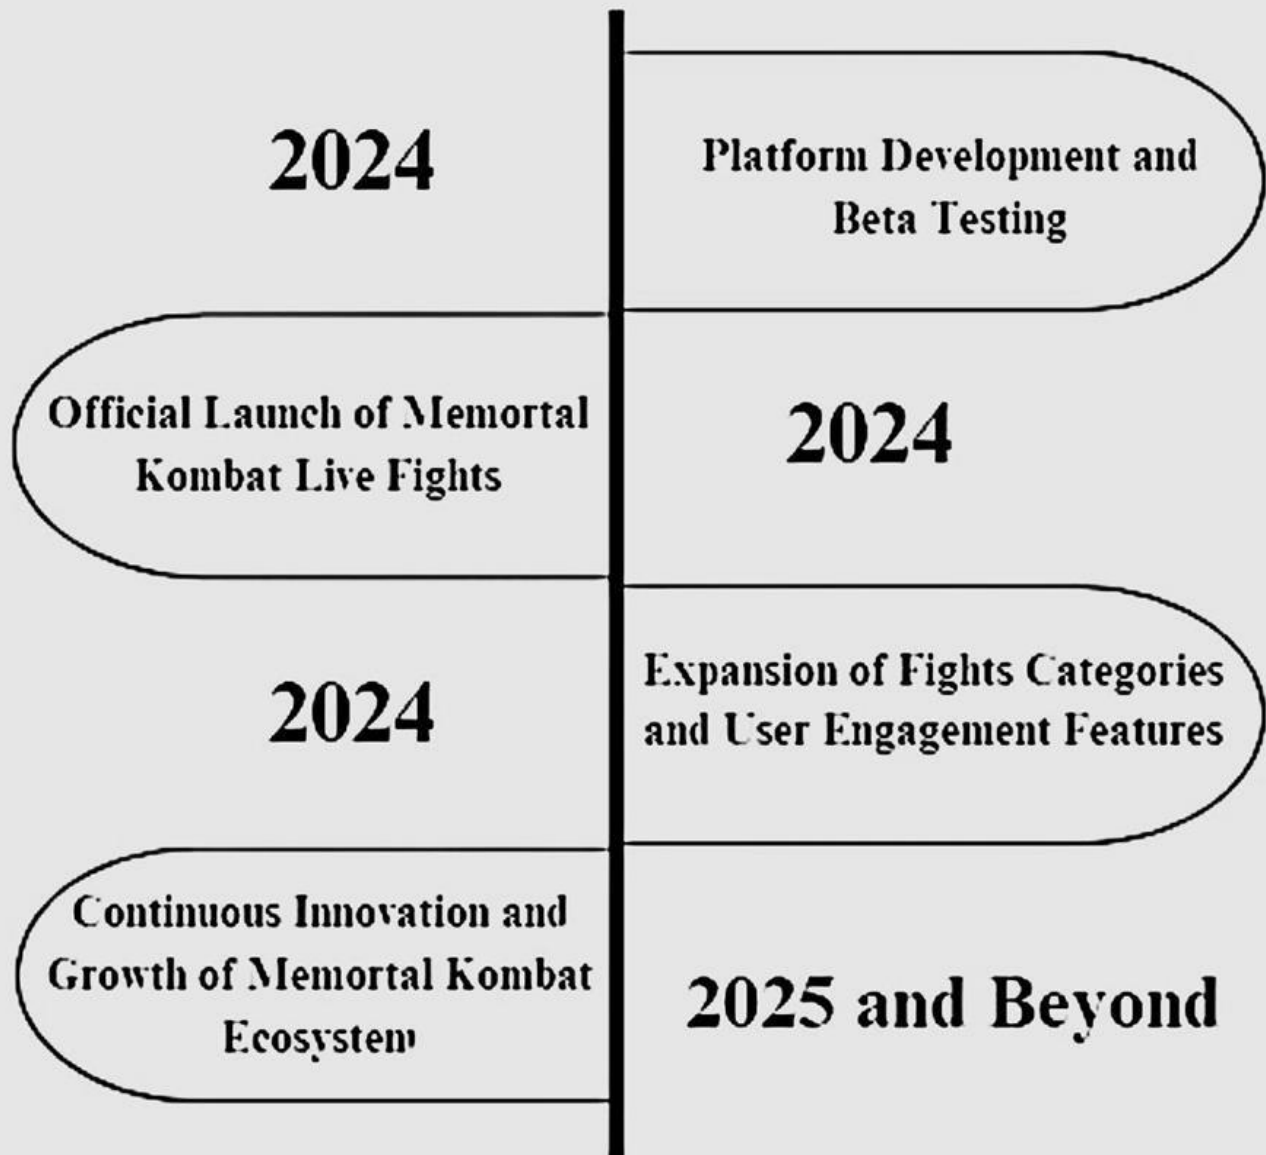

3.2 Tokenomics

The total supply of Memortal Kombat Token is 121 Million tokens. The $MKOM Tokenomics structure is meticulously designed to distribute the total supply of tokens across various essential segments, ensuring the stability, growth, and engagement within the Memortal Kombat ecosystem. Below, we'll examine the specific allocation of the $MKOM tokens:

Total Supply: 121,000,000 $MKOM

Distribution:
- 50% allocated for Pre-sale & DEX allocation
- 20% reserved for staking & Battle rewards
- 20% retained by the team for ongoing development and operations
- 10% for strategic partnerships and marketing

MEMORTAL KOMBAT
ROAD MAP - SUMMARY

2024 — Platform Development and Beta Testing

Official Launch of Memortal Kombat Live Fights — **2024**

2024 — Expansion of Fights Categories and User Engagement Features

Continuous Innovation and Growth of Memortal Kombat Ecosystem — **2025 and Beyond**

What is Polygon chain?

Polygon, formerly known as Matic Network, is a layer 2 scaling solution for Ethereum. It aims to address the scalability and usability issues of the Ethereum network by providing faster and cheaper transactions while maintaining compatibility with Ethereum. Polygon achieves this by using sidechains, which are separate blockchains that run alongside the Ethereum main chain.

The Polygon ecosystem consists of multiple sidechains, each capable of processing transactions and smart contracts independently. These sidechains are secured by a network of validators and can interact with the Ethereum main chain through various mechanisms, such as Plasma or checkpoints.

One of the key features of Polygon is its ability to provide fast and low-cost transactions. By moving transactions off the Ethereum main chain onto sidechains, Polygon reduces congestion and gas fees while increasing throughput. This makes it more practical for decentralized applications (DApps) and users to interact with the Ethereum ecosystem.

Additionally, Polygon offers various tools and services to developers to simplify the process of building and deploying DApps on its platform. These include developer SDKs, APIs, and infrastructure components like the Polygon SDK and Polygon.js.

Overall, Polygon aims to enhance the scalability, security, and usability of Ethereum, making it a more attractive platform for developers and users alike.

MKOM INFO

Name
Memortal Kombat

Symbol
MKOM

Contract Address
0x19EDED281157EeCeb35f77221e1b9206649
7124D0

Supply
121,000,000

Decimals
9

Conclusion:

In conclusion, Memortal Kombat stands at the forefront of gaming innovation, introducing live cartoon animated fights that redefine the gaming experience. With its dynamic platform, diverse fight categories, and immersive betting opportunities, Memortal Kombat aims to captivate audiences worldwide, ushering in a new era of decentralized gaming. Join us on this exhilarating journey into the world of Memortal Kombat!

Disclaimer:

Participants in the Memortal Kombat project acknowledge the following:

Regulatory Compliance: Compliance with local regulations is the responsibility of each participant.
Investment Risk: The value of MKOM tokens can fluctuate, and investments may result in losses.
Volatility: Cryptocurrency markets are volatile, and token prices may change rapidly.
Security Risks: Participants should take precautions to secure their assets and accounts.
Disclaimer of Liability: Memortal Kombat and its team are not liable for any damages resulting from participation.
Participants engage with Memortal Kombat at their own risk and are advised to conduct thorough research and seek independent advice.
